Cape Cod & the Islands

## Hope HouseCalls: Specialized Dementia Service

Our **Hope HouseCalls** program offers a specialized service to address many of the challenges experienced on a daily basis by caregivers of those living with Alzheimer's disease or a related dementia. Specially trained social workers provide care plan development, education, behavioral management, home safety plans and cognitive assessments for the memory impaired. And we do this in the comfort and safety of your home.

The program includes ongoing assessment and one-on-one support to develop meaningful and effective interventions for caregivers.

### **With this service, clients receive...**

- Education regarding the disease and its progression
- Behavioral management techniques
- Communication strategies
- Support in development of a long-term care plan
- Safety awareness in the home
- Cognitive safety assessments for the person experiencing memory impairment

Fees are usually covered by Medicare or other medical insurance. Co-pays may apply.

*"The caregiver support group has allowed me to share my inner feelings with others who feel the same way. This group has given me the strength to go on every day."*

For over 30 years as Hospice & Palliative Care of Cape Cod, we've been providing hope to thousands of people. Now – we are Hope.

At HopeHealth, we help more people gain access to care and services – earlier and easier.

Today, we deliver a wide range of medical care, care management and support services throughout Eastern Massachusetts.

**Our HopeHealth family of services includes:**

Hospice

Palliative care consults

HouseCalls, home-based primary care

Dementia & Alzheimer's services

Pediatric care

## You Can Help

Your support ensures that caregivers and those living with dementia receive the services, care and support needed for the best possible quality of life.

As a community-based, non-profit organization, we depend on the generosity of many individuals, foundations and corporations.
